20 On January 25, 2013, SK hynix Inc., SK hynix America Inc., SK hynix U.K. Ltd., and SK  
21 hynix Deutschland GmbH (collectively, "SK hynix") filed a motion for summary judgment of  
22 unenforceability of the patents-in-suit based on the asserted collateral estoppel effect of the January  
23 2, 2013 decision of the United States District Court for the District of Delaware. Rambus shall file a  
24 response to the motion on or before February 15, 2013. The court will advise the parties if it wishes  
25 a reply from SK hynix. Rambus shall address whether application of the collateral estoppel doctrine  
26 is discretionary in this instance and, if so, whether the court should apply the doctrine given the  
27 procedural postures of this case and the Delaware case.
